DETAILED ACTION

Allowable Subject Matter

1. Claims 5-13, 16-18, are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art shows an apparatus for drawing a line method but does not disclose Divide-by-two means for dividing the added data by two and outputting divided data, wherein the coordinate data output from the first and second data storage means are output to the first data storage means, and wherein the divided data is input from the divide-by-two means to the second storage means/ predetermined one of the data storage areas.

The prior art taken singly or in combination does not teach or suggest an apparatus for drawing a line connecting a start point to an end point, the apparatus comprising:

First and second data storage means, each said storage means accepting a plurality of input coordinate data and sequentially outputting one item of these data after another on a first in first out basis;

Midpoint generating means for generating a midpoint coordinate data from the respective coordinate data output from the first and second data storage means and outputting the midpoint coordinate data, wherein the coordinate data output from the first and second data storage means are input to the first data storage means, and wherein the midpoint coordinate data is input from the generating means to the second storage means.

The closest prior art shows an apparatus for drawing a line using midpoint method but does not disclose the coordinate data output from the first and second data storage means are
